

## Instructions for Completing the NCHSAA Student-Athlete Preparticipation Physical Evaluation (PPE)

In order to be medically eligible for participation in practice or in interscholastic athletic contests, a student must have a completed NCHSAA PPE and submit it to the school. The PPE is four (4) pages in length and includes the **History Form**, the **Physical Examination Form**, and the **Medical Eligibility Form**.

The PPE **History Form** (pages 1-2) is completed and signed by the parent or legal custodian on behalf of the student-athlete. The completed and signed PPE History Form must then be presented to the examining Licensed Medical Professional (LMP) (physician licensed to practice medicine (MD/DO), nurse practitioner or physician assistant) for review when they fill out the Physical Examination Form.

The completed PPE **Physical Examination Form** (page 3) is signed and dated by the LMP who performed the examination. The physical examination builds on information obtained in the medical history.

The PPE **Medical Eligibility Form** (page 4), which is also signed and dated by the LMP, indicates the student-athlete is either medically eligible or not medically eligible for sports participation.

I have examined the student named on this form and completed the preparticipation physical evaluation. The athlete does not have apparent clinical contraindications to practice and can participate in the sport(s) as outlined on this form. A copy of the physical examination findings are on record in my office and can be made available to the school at the request of the parents. If conditions arise after the athlete has been cleared for participation, the physician may rescind the medical eligibility until the problem is resolved and the potential consequences are completely explained to the athlete (and parents or guardians).
